

JUSTIN W. PECKHAM

IT Asset Recovery & Reverse Logistics Specialist

Clovis, CA 93727 • (559) 575-0508 • yourjustintime@gmail.com

PROFESSIONAL SUMMARY

IT Asset Management & Reverse Logistics Specialist with 20+ years of technical intuition built from the ground up. Expert in high-volume hardware diagnostics, NIST-compliant data sanitization, and full-lifecycle IT asset recovery. Directly managed 10,000+ storage assets and hundreds of enterprise servers for government and institutional clients. Operator of Your Justin Time — on-site IT services for residential and commercial clients across Fresno, Clovis, and Sanger.

PROFESSIONAL EXPERIENCE

Lead IT Technician & Reverse Logistics Specialist

Your Justin Time — Owner/Operator

2015 – Present

- Manage full-cycle ITAD for local businesses and residential clients across Fresno, Clovis, and Sanger.
- Sanitized 10,000+ hard drives using NIST 800-88 and DBAN standards — 100% data security record.
- Design and install custom CCTV/NVR surveillance systems and enterprise network topologies.
- Provide on-site computer repair, virus removal, hardware upgrades, and tech support.

Head Technician & Reverse Logistics Lead

A & W Surplus & Auctions

2019 – Present

- Lead the Fresno County and Reedley College government electronics recycling programs, processing thousands of assets annually.
- Wiped or physically destroyed 10,000+ hard drives using NIST-standard protocols (DISKPART, DBAN).
- Triaged and decommissioned hundreds of enterprise servers; identified high-value components for secondary market recovery.
- Engineered and maintain IP/CCTV surveillance systems across two primary business locations and numerous residential sites.
- Direct e-commerce and auction workflows for refurbished gear, ensuring high ROI on liquidated assets.

IT Asset Technician & Warehouse Associate

A & W Surplus & Auctions

2004 – 2019

- Performed technical triage and diagnostics on bulk electronics for one of the region's largest weekly liquidation auctions.
 - Developed deep hardware intuition by processing legacy and modern systems — Repair vs. Scrap decisions on millions in goods.
 - Provided internal IT support ensuring 100% network and point-of-sale uptime on auction days.
-
